OBJECTIVE

A third year Integrated MSc Data Science student with a solid foundation in Data Science, seeking a dynamic role to leverage technical expertise, good communication, leadership and teamwork skills. Dedicated to continuous learning and enthusiastic explorer of more technologies and tools. Stronger analytical, problem-solving skills and great decision maker, ready to contribute to innovative projects and adapt evolving industrial trends

EDUCATION

Amrita Vishwa Vidyapeedam

Integrated Master's Degree in Datascience
2022 - 2027
CGPA - 9.2

Amrita Vidyalayam

HSC
2021 - 2022
Percentage - 92

Amrita Vidyalayam

SSLC
2019 - 2020
Percentage - 95

TECHNICAL SKILLS

Operating System : Windows
Programming Language : Python, JAVA, R
Microsoft Technologies : Power BI
RDBMS : MySQL, NoSQL

AREAS OF INTREST

Data Analysis
GenAI
Data Visualization
Networking

SOFT SKILLS

Efficient Learner
Communication
Time management
Team work

ACADEMIC PROJECTS

PROJECT 1

Title : Smart HR Management
Technology : HTML, CSS, Javascript, NLP, PHP
Description : Developed a website where applicants can apply for various roles listed and selection of candidates happens in an automated system like the present day (ATS). It uses technologies like **NLP** and text recognition for important keywords to shortlist.

PROJECT 2 (RESEARCH PAPERS)

Title : Parkinsons Disease Prediction and Analysis
Technology : Machine Learning , Python , Streamlit
Description : This is research based project where we train the model for predicting the disease in future
Title : Agricultural profit making for farmers
Technology : Machine Learning , Python , NLP and DL(futurisitic)
Description : This is research based project where we find possibilities to improve farmers profit in markets.

CERTIFICATIONS

NPTEL : Python for Data Science
Programming in Java
Cognizant : Data Analysis using Python
Data Visualization using Python
My Captain : Web Development (html,css,javascript) -LOR
Basics of Python ,Data Analysis
CIR AMRITA : Data Analysis using Microsoft Excel
